Why Scrum?

Scrum is one of the most popular agile methodologies. It is an adaptive, iterative, fast, flexible, and effective methodology designed to deliver significant value quickly and throughout a project. Scrum ensures transparency in communication and creates an environment of collective accountability and continuous progress.

The Scrum framework, as defined in the SBOK™ Guide, is structured in such a way that it supports product and service development in all types of industries and in any type of project, irrespective of its complexity.

What will you get from the course?

- You will become familiar with the concepts, advantages, and challenges of the Scrum methodology.
- You will be equipped with the knowledge needed to be the Scrum Product Owner in your organizations and help your organizations adopt Scrum methodology.
 Furthermore, you will develop an understanding of all the roles in Scrum.
- You will have experience carrying out a Scrum project through simulated case studies.
- You will gain knowledge to identify and anticipate issues related to the practical implementation of scrum.
- You will be armed with the proper tools to address, resolve, and take the lead on Scrum issues in your organizations.
- All-inclusive without any hidden cost (Study material, Live Instructor or Online self-study videos and Exam Voucher with 2 free attempts)

SPOC™	1 year of Scrum experience	Preferably SDC™ certified professional	Anyone who interfaces with business stakeholders or works as a Product Owner in a Scrum Project.	40 Recertification units every 2 years

Overview

The Product Owner represents the interests of the stakeholder community to the Scrum Team. The Product Owner is responsible for ensuring clear communication of product or service functionality requirements to the Scrum Team, defining Acceptance Criteria, and ensuring those criteria are met. The Product Owner must always maintain a dual view. He or she must understand and support the needs and interests of all stakeholders, while also understanding the needs and workings of the Scrum Team.

Applicants will be awarded the Scrum Product Owner Certified (SPOC™) certificate by SCRUMstudy upon successfully passing the certification exam.

Audience Profile

This certification is for anyone who interfaces with stakeholders or works as a Product Owner in a Scrum Team.

Prerequisites

There is no formal prerequisite for this certification. However, SDC™ or SMC™ Certified professionals will be able to better understand the concepts required for this certification exam. It is also highly recommended to attend a 2-day SPOC™ classroom training.
